

Please join us for an evening of music

Autism and Music

Enhancing your understanding of Autism through Music and Medicine

Meet our performers. Let them be your teachers for the evening.
Learn how music has impacted their lives.

A Humanities in Medicine Program

Tuesday, March 28, 2017

The DeMatteis Family Atrium, Hofstra Northwell School of Medicine, North Campus

5:30-6 p.m. Reception

Enjoy some refreshments while listening to a band composed entirely of individuals with autism.

6-7 p.m. Musical Concert

Performances will include piano, voice, both solo and a chorus, as well as various other instruments.

7-8 p.m. Panel Discussion

Our panelists will include several of our performers, parents, music therapists and experts, including Dr. Stephen Shore, an international authority on music and autism and himself a musician with autism. Dr. Anna Krevskaya of Cohen Children's Medical Center, Northwell Health, will moderate the panel.

All are welcome to attend. To **RSVP** [CLICK HERE](#)
Questions? Contact Lisa Martin at Lisa.Martin@hofstra.edu.
