

Are you a medical student or resident excited about medical education? The Student and Resident Track at the NEGEA provides opportunities to connect with other students and residents with similar interests and directly with faculty and leaders in medical education in the Northeast. The Track is a series of optional sessions specifically designed by and for students and residents.

With this year's lineup you will have the opportunity to:

- Learn how to make medical education part of your career
- Network with the region's best medical education leaders
- Expand your teaching skills
- Discover how you can produce scholarly medical education work

Sign up for this year's Student and Resident Track at the NEGEA Conference on-site at the Registration Table. No pre-registration or additional cost!

#### EVENT

#### DESCRIPTION

**How to Give and Receive Feedback as a Physician-in-Training**  
*Presented by: Rory Merritt, MD and Travis Hase, MD*  
**Friday 4/27 1:15-1:45pm**

*Like it or not, giving and receiving feedback in the medical field is here to stay! In this interactive session, featuring role plays, learn how to refine your ability to both give and receive feedback in the healthcare setting.*

**Speed Mentoring Session**

**Friday 4/27 3:30-4:45pm**

*Network with leaders in medical education throughout the region in this exciting speed-mentoring event. In quick 10-minute sessions, you will have the opportunity to ask questions ranging from career advice to seeking out advice about challenges in your own medical education projects.*

**Opportunities for Scholarly Medical Education Work for Students and Residents**  
*Presented by: Rebecca Blanchard, PhD and Steve Rougas, MD*  
**Saturday 4/28 11:45-1:00pm**

*Learn how to navigate the world of medical education publication while discovering alternative ways to create scholarly work beyond major academic journals.*

**Careers in Medical Education: What's Available and How Do I Get There?**

**Saturday 4/28 1:00-2:00pm**

*How does one become a program director? What does it take to be a Dean? In this panel of experienced medical educators, learn how leaders found success in their medical education-focused careers. Panel members will describe their career paths prior to an open question and answer session.*
