The Feinstein Institute for Medical Research
Goldman Conference Center

Joseph Loscalzo, MD, is the Hersey Professor of the Theory and Practice of Medicine at Harvard Medical School, Chair of the Department of Medicine, and physician-in-chief at the Brigham and Women’s Hospital.

Bestowed two honorary degrees, Dr. Loscalzo is the recipient of several awards for his work as a cardiovascular scientist, clinician and teacher, including the Paul Dudley White Award from the American Heart Association. He is also the editor-in-chief of Circulation, the journal of the American Heart Association, as well as a senior editor of Harrison’s Principles of Internal Medicine, a member of the Advisory Council of the National Heart, Lung and Blood Institute, and a member of the Council of Councils of the National Institutes of Health.

Dr. Loscalzo has been a visiting professor at many institutions, has authored or co-authored more than 500 scientific publications, and has authored or edited 23 books. He also holds 27 patents for his work in the field of nitric oxide, and has received many grants from the NIH and industry for his contributions in vascular biology, thrombosis, and atherosclerosis over the past 25 years.

Alpha Omega Alpha, founded in 1902, is the national medical honor society.

Election to Alpha Omega Alpha is an honor signifying a lasting commitment to scholarship, leadership, professionalism, and service. A lifelong honor, membership in the society confers recognition for a physician's dedication to the profession and art of healing.
