---

Students may be considered for graduation with Distinction in Research if they, during medical school, significantly contributed to the design and execution of a research project that culminated in the submission of an original article to a peer-reviewed Pub-Med indexed journal. To qualify, the research project must be hypothesis driven. The student's contribution must meet the Hofstra Northwell School of Medicine criteria for authorship ([http://medicine.hofstra.edu/about/policies/policies\\_research\\_authorship.html](http://medicine.hofstra.edu/about/policies/policies_research_authorship.html)) and as such, excludes observational and case-based reports. An application form must be submitted to the Student Research Advisory Committee, a subcommittee of the Student Advancement Committee, by March 1 of the student's graduation year. The Student Research Advisory Committee will consider each student's participation on a case- by-case basis and approve the designation.

Instructions: Please fill out this form to the best of your ability. (Please feel free attach a separate sheet.)

---

### Section 1: Project Information

Please provide where the manuscript was submitted (include all abstracts/poster presentations with dates):

#### **Candidate's contribution:**

When was the project initiated?

Please explain the student's role in the conceptualization and design of the study. If the student did not have a significant role, please state that.

Did the student perform any of the analysis and interpretation of study data? If so, please detail.

Did the student write and/or edit the manuscript?

Please include any additional information you feel is to the student's participation in the study.

### Section 2: Certification
