

## Resources

### [Annotated Bibliography of Journals for Educational Scholarship 2017](#) PDF

This update to the *Annotated Bibliography of Journals for Educational Scholarship* was coordinated by the NEGEA in collaboration with members from the CGEA, SGEA, and WGEA. The *Annotated Bibliography* provides scholars and researchers with detailed information about the topics, types of manuscripts, and audiences for over 60 journals that publish health professions education manuscripts. This bibliography also includes repositories of educational materials. For more information on this document please contact [Andrea Berry](#).

### [Review Criteria for Research Manuscripts 2<sup>nd</sup> Edition](#) PDF

This monograph is a joint project of *Academic Medicine* and the MESRE section. David Sklar writes in the introduction that this monograph “is intended to familiarize our reviewers, both new and experienced, with the purposes of review, approaches to or best practices for reviewing, and criteria for superlative research.”

### [Conducting Research in Health Professions Education: Academic Medicine Last Pages 2010-2016](#) PDF

This e-book presents a collection of AM Last Pages that provides readers, particularly those who are new to scholarship and research in the health professions with a set of resources that introduce the principles of educational scholarship.

### [Research in Medical Education: A Primer for Students 2015](#) PDF

This primer was written by members of the Organization of Student Representatives. Similar to the e-book, “Conducting Research in Health Professions Education: Academic Medicine Last Pages”, this monograph introduces the principles of educational research and scholarship.
