JUST IN TIME TEACHING
Look for the App available to download to your Apple ios

Infographic teaching tips for medical school faculty, clinicians, preceptors, resident/trainees & students.

Just in Time technology-enhanced infographic content that is evidence based, specific to teaching in diverse & busy clinical environments.

Reach a large spectrum of clinicians & trainees who need to know how to teach diverse learners in busy clinical settings while crossing geographic boundaries to assure a uniform message.

Just in Time Teaching meets accreditation standards for required competencies for clinicians & trainees to know how to teach learners they encounter.
