

“
The artist allows us to
see the world in a new way.
The artist gives us hope,
reminds us we're not alone,
and gives us valuable insights
into the human condition.
The artist can heal.
The artist inspires.”

present

A Musical Interview

with actress, singer, songwriter, and director

Anita Hollander

Anita Hollander lost her leg to cancer in 1977. Returning to rehearsals just weeks after the amputation of her leg, she went on to have a successful international musical theater career, starring in many New York shows, including her own funny and moving one-woman show, *Still Standing*.

*Zucker School of Medicine students will interview
Anita Hollander, and her responses will be interspersed with
her live performance of songs from her various shows.*

Thursday, January 21, 2021

6-7:30 p.m. via Zoom

Advance registration is required.
