in conjunction with

Zucker School of Medicine Hillel (Hofstra Hillel MD), Northwell Health's Department of Medicine, Department of Psychiatry, Center for Equity of Care, the Jewish Bridges BERG (Business Employee Resource Group), Northwell System Chaplaincy, and Hofstra Hillel

presents a

HOLOCAUST REMEMBRANCE DAY LECTURE

Holocaust and Medicine Legacy for Medical Education and Practice: *A Holocaust Survivor's Daughter Teaches German Medical Students at Auschwitz*

Confronting, reflecting upon, and learning about egregious ethical violations of physicians and the medical establishment in Germany and Austria during the Third Reich have been described as a moral imperative within medical education. As a medical educator and daughter of a Holocaust survivor, Dr. Hedy Wald shares her recent experience of teaching medical students at the Witten/Herdecke Faculty of Health in Germany about medical ethics and morally resilient professional identity formation by reflecting on the role of medicine during the Holocaust.

Hedy S. Wald, PhD, is clinical professor of family medicine at the Alpert Medical School of Brown University and faculty, Harvard Medical School Pediatrics Leadership

Program. She has published extensively and lectures internationally on medicine and the Holocaust.

Wednesday, April 7, 2021

Holocaust Remembrance Eve

6-7 p.m., via Zoom

Register at medicine.hofstra.edu/040721hrd.

All students, faculty, and staff of the Zucker School of Medicine, Northwell Health, and Hofstra University are welcome to attend. Advance registration is required; registrants will receive a Zoom link to join the program.
