

# School of Medicine Classroom Control System

**To get started** press the tap panel. You can then choose any of the available sources by selecting the associated labels (VCR, DVD, PC'S, etc.). Select the source and a new touch panel page appears with additional source options. NOTE: the source volume is controlled by the buttons on the bezel, and environment screen.

Tap **Room PC** to access the computer, which will display on the flat screen TV. To make sure the monitor is on press **Environment**. Press **ON** for the monitor to be on. Give the monitor a minute to turn on.

If the monitor is still off, make sure the tower in the white cabinet in the corner is on.

## DVD/VCR:

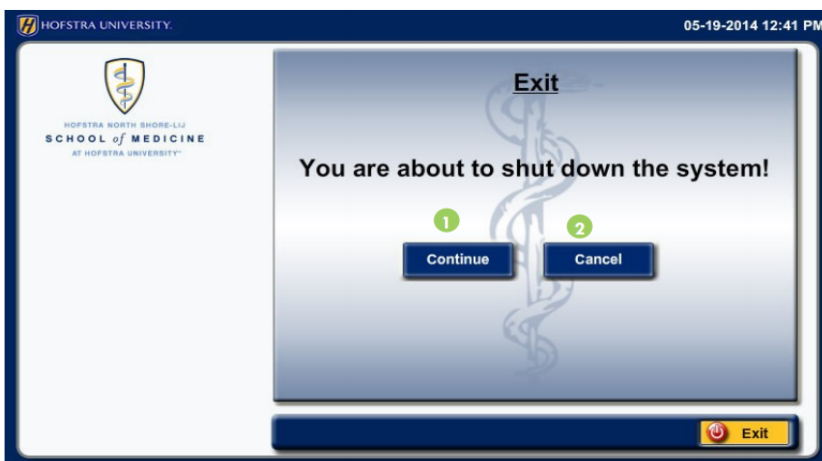

To access DVD/VCR options press **DVD/VCR**, at the top of the left side column in the home screen. A screen will appear with the DVD controls, to switch to VCR controls select the VCR option towards the bottom of the screen next to the DVD selection.

## Connecting a laptop or other Device

For Laptop devices, on the home screen, press **Laptop**. Connect your laptop to adaptor and plug into outlet in the wall under the monitor. Volume is controlled in the lower right side of the screen. For Apple devices please use correct adaptor.

## Exiting the System

To turn off press **Exit** and **Continue** to shut down.
