

# School of Medicine

## Executive Conference Room Control System

**To get started** press the touch panel. You can then choose any of the available sources by selecting the associated labels (VCR, DVD, PC'S, etc.). Select the source and a new touch panel page appears with additional source options. NOTE: the source volume is controlled by the buttons on the bezel, and environment screen.

### Connecting a laptop or other Device

Tap **Computer Presentation** to choose

**(2) Laptop 1, 2 or 3**

**(3) Tap to choose the source you want to show on the display, either the **Monitor** or **Projector**, or **both**.**

## Environment

Tap **Environment** to choose to turn on/off the monitor and projector. You may also move the screen up and down in this page.

## DVD/VCR

The images below are of the touch panel pages displayed by pressing the **DVD** or **VCR**. Select the **basic DVD/VCR functions**. Also, tap to choose the **destination** to show that source on the display.

## Audio Conference

Touch **Audio Conference** to access audio conference controls.

(2) Dial Pad, (3) Dial Input Number, (4) Hang Up, (5) Mute Microphone

## Exiting the System

Tap **Exit** and then **Continue** to shut down the system. The system will now power off.
