HIGHLIGHTS AND GOALS

- Students develop the **vision, knowledge, and skills** to plan and implement innovative educational programs, foster continuous quality improvement, support effective teaching, apply best practices to assess and evaluate academic programs, and disseminate scholarship related to educational research.
- **Synchronous and fully online learning** allows working professionals to complete the part-time programs within one to three years.
- The **combined expertise and resources** of Hofstra University's School of Health Professions and Human Services, Donald and Barbara Zucker School of Medicine at Hofstra/Northwell, and Northwell Health give students a comprehensive learning experience.
- A **thesis project** allows students to apply their new knowledge of educational principles and leadership in the clinical settings in which they work.
- The **four-day Residency Week** allows students to synthesize and apply the principles and concepts from the program courses while participating in intensive, face-to-face classroom, education and leadership-focused activities with their peers.
- Students complete the MSEd with a **manuscript for submission to a peer-reviewed journal**.

WHO SHOULD APPLY?
Health professionals and administrators within academic settings and those preparing for leadership roles can benefit from these programs, including:

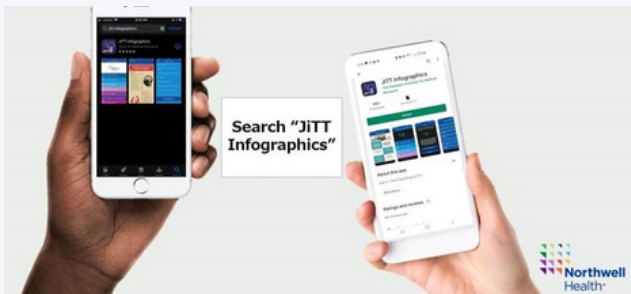

- physicians • residents/fellows
- physician assistants • nurses
- clinical social workers • therapists
- nutritionists • chaplains
- clinical preceptors/supervisors
- clinician educators
- program directors and department chairs
- allied health professionals
- health professions students

Program applicants should investigate institutional tuition assistance, scholarship funding may be available for hospital employees.
