

MAP-IT 1.0

Mentoring and Professional in Training (MAP-IT) 1.0 is an interprofessional longitudinal 10-month professional development program focused on using appreciative inquiry to guide professionalism and humanism as core values. As of 2024, 10 cohorts (over 1000 participants) have completed the program.

KERN NATIONAL NETWORK
FOR FLOURISHING IN MEDICINE
Character. Caring. Practical Wisdom.

MAP-IT 1.5

Building off the success of Clinical MAP-IT, a new MAP-IT program, 1.5, was developed in the Fall of 2023, which focuses on **character, caring and practical wisdom** to support human flourishing.

For information/nomination/recruitment to both programs, please contact Alice Fornari (afornari@northwell.edu). New cohorts begin each October with recruitment beginning in June.

JiTT Infographic App-Version 5.0

The JiTT App is a technology-assisted teaching that is a free open-access medical education (FOAM) resource with 250 teaching tips and videos. It is in version 5.0 and used world-wide to support education in busy clinical environments. Scan the QR code to download the JiTT App in iOS or Google Play.

Faculty Development Council (FDC)

A Northwell Health System initiative led by Karen Friedman, MD, MS and Alice Fornari, EdD. The FDC goal is to develop, promote and centralize faculty development (FD) best practices across clinical departments. The Council selects faculty development topics applicable to all clinical specialties and develops relevant evidence-based education resources to assure a unified approach to faculty development in our large geographically dispersed health system.

Faculty Mentoring Toolkit

An open access resource for all departments to use and guide mentoring programs with best practices. Guidance on development of department specific mentoring program is available by FDC members upon request.

Interprofessional Education & Collaborative Care (IPEC)

A PowerPoint presentation developed to educate clinicians on the significance of **IPEC** in the context of our evolving healthcare landscape. Evidence-based content, with clinical cases, are included with a goal to improve patient care. Sessions applicable to diverse formats are available for the 2024/2025 academic year, with a request to afornari@northwell.edu

Advanced Teaching Learning & Assessment Skills (ATLAS)

Six (6) in person/live sessions focused on the core principles of Health Professions Education from September through December 2024. CME credit is offered for these sessions.

For registration details and more information scan here.

Access to the current FDC clinical education efforts can be found on the ZSOM faculty development website. <https://medicine.hofstra.edu/faculty/facdev/>

Educational Research Skills Development (ERSD)

Interactive virtual sessions focused on developing educational scholarship knowledge and skills. An opportunity to bring an education focused scholarly project idea to fruition.
